

Death is Done

© Mark Counihan and Ross Lester

Verse

Death is dead and done
The King has come and won
Shaking the chains from us

O death where is your sting?
Since you couldn't hold our King
You're swallowed in His victory

Chorus

So let this be
A song of belief
From fear into faith
From guilt into grace
Christ won the day

Our sin is dark as night
But the gift of God is life
In our Lord Jesus Christ
Now death is done
And Christ won the day

Verse

Now all's beneath His feet
And our King can take His seat
For all eternity

From cursed on a tree
Now He lives in victory
Now live in victory

Bridge

Love stooped lower
We were nowhere and You came for us
Love takes over
You're alive and You're victorious
